Reduce Cost, Increase Sales with your own brand

We believe that charter operators are the heart of the sailing tourism.

Hiding your name, your boats and location turns the market a price competition system which we don't believe.

We have created a brand new solution with more than 25 years of charter experience to place you, the charter operator into the center again.

Now you have a solution that puts your quality to the frontline.

We are not interested with your relationship with your agencies or customers.

GotoSailing.com Charter Base Management System helps you stay ahead in competition while increasing your service level and sales.

White Label Solution with your own brand name

While our platform is fully integrated with multiple B2B Booking Systems*, you are welcome to use our free system as White Label.

- Share it with your boat owners, agencies and customers with your own brand name
- All your bookings are "instantly" integrated into other systems, no more manual entry
- Integrate the white label solution into your web site and start taking online bookings directly yourself
